Re: K-LOVE FM Radio

K-LOVE radio station in my community of El Paso, Texas is the radio station I listen to about 97% of the time. They provide uplifting music and encouraging messages throughout each day. My radio is rarely on any other station. I would be lost without it.

If K-LOVE was replaced by an LPFM I would not listen to the radio. My children and I need the music and encouragement that KLOVE provides.

K-LOVE is the only radio station that provides a place for my radio to stay at all times. It encourages every one who rides in my car. I believe that I have a much better attitude because of what I am listening to, therefore it is in the best interest of the public for this positive influence to continue.

Please do not interfere with this station's ability to broadcast to my area, I depend on this station for all my listening needs, and it provides all I need.

Thank you for your consideration.
